

Challenge Walk Mobile App Tips

Fundraising just became easier – and at your fingertips! The Challenge Walk MS Participant Center app is now available for iOS (iPad, iPhone, iPod touch) and Android. This application allows you to connect with others through social media and email, update your personal page, check your progress and manage donations on the go.

Step 1: Download the Challenge Walk MS mobile app

Tap to download the application. Application will then show on your home screen. Tap the app to open and get started.

Step 2: Login.

-Use your Participant Center login credentials to sync your application to your Participant Center.

-Accept or decline push notifications. These alert you of new donations and connections.

-At the bottom of the login screen, you can register for any MS event, search for specific participants or teams to donate to, or request a forgotten username or password.

Step 3: Get Started!

Your homepage will track your progress thus far and how many days until the walk.

Access the donation tools by tapping:

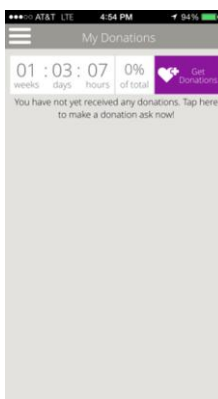

Home Screen

Get Donations

Send messages via social media, text messages, or email to your donors by clicking on any of the six options.

My Donations

Check your donation progress and see the countdown to the walk.

Profile Page

Manage your personal page, share your page via social media, upload a photo, or update your page by tapping the pencil icon.

For assistance with the Challenge Walk MS app, fundraising with Facebook, or social media inquiries please reach out to the Fundraising Support Center at 855-372-1331 or fundraisingsupport@nmss.org
